

PowerWalker SNMP Card 2

SNMP Module

Monitor UPS through RJ45 network connection

RJ45 10/100BaseT port

Protocol support SNMP-V1, SNMP-V3, Telnet, HTTPS

Schedule shutdown, start up, reboot

Optional: Environmental Monitor Detector

Item-No. 10131008

PowerWalker SNMP Card 2 is a communication solution for UPS monitoring and control. This SNMP manager card allows remote monitor and manage multiple UPSs from anywhere with internet access. Integrated web access will leverage internet capability of SNMP manager to remotely program or shut down UPSs. Equipped with SNMP manager, power conditions of all UPSs can be monitored anytime/anywhere even though the UPS units are located in different floors. Besides, this card also come equipped with easy-to-update firmware feature. Whenever the updated firmware is released, system manager can download it and simply upgrade all with one click.

Product Features

- Allows controlling and monitoring of multiple UPSs through RJ45 network connection
- Supports HTTPS, IPv6, SNMPv1/v3, Telnet
- Real-time dynamic graphs of UPS data
- Warning notifications via audible alarm, broadcast, mobile messenger, e-mail and SNMP traps
- Historic data log stored in centralized PC database
- Simple firmware upgrade with one click
- Password security protection and remote access management
- PowerSoft software offers another enhanced communication solution for UPS monitoring and control.

Supports following models:

VI 500-1500 R1U

Product Features

Model Code	SNMP Card 2
Item Number	10131008
EAN	4260074980424
Warranty	24 Months
Giftbox Language	EN
Manual Language	EN
Environment	
Temperature	0°C – 40°C
Humidity	0 - 95% RH (non- condensing)

Version: EN 04/10/2017
